

Free and Open Source Software for Geospatial - **FOSS4G**

FOSS4G 2023

Innovation & Training Park, Prizren, Kosovo
26 June - 2 July 2023

"The world's largest gathering of open source geospatial users, developers, and researchers."

Organized by OSGeo and with more than 15 years of experience, this international annual gathering of location enthusiasts is the largest global gathering for geospatial software. For FOSS4G 2023, NGO FLOSSK from Kosovo is your host and the local conference organizer.

Overview FOSS4G

Thank you for your interest in the FOSS4G 2023.

This brochure provides an overview of the sponsorship opportunities for FOSS4G 2023, which will be held at the Innovation & Training Park in Prizren, Kosovo, from the 26th of June to the 2nd of July 2022.

FOSS4G means Free and Open Source Software for Geospatial. It is the annual recurring global event hosted by OSGeo, the non-profit organization that supports and promotes the collaborative development of free and open-source geographic technologies and open geospatial data. The conference covers all kinds of topics related to geospatial information and earth observation openness from Software development to Transition to FOSS4G, Use cases and applications, Education and research, and Open data.

Conference Details

Website: www.2023.foss4g.org

2023 Estimated Attendance: 1000* participants

*In 2019 and 2022 FOSS4G had an average of 1200 participants.

Audience Profile

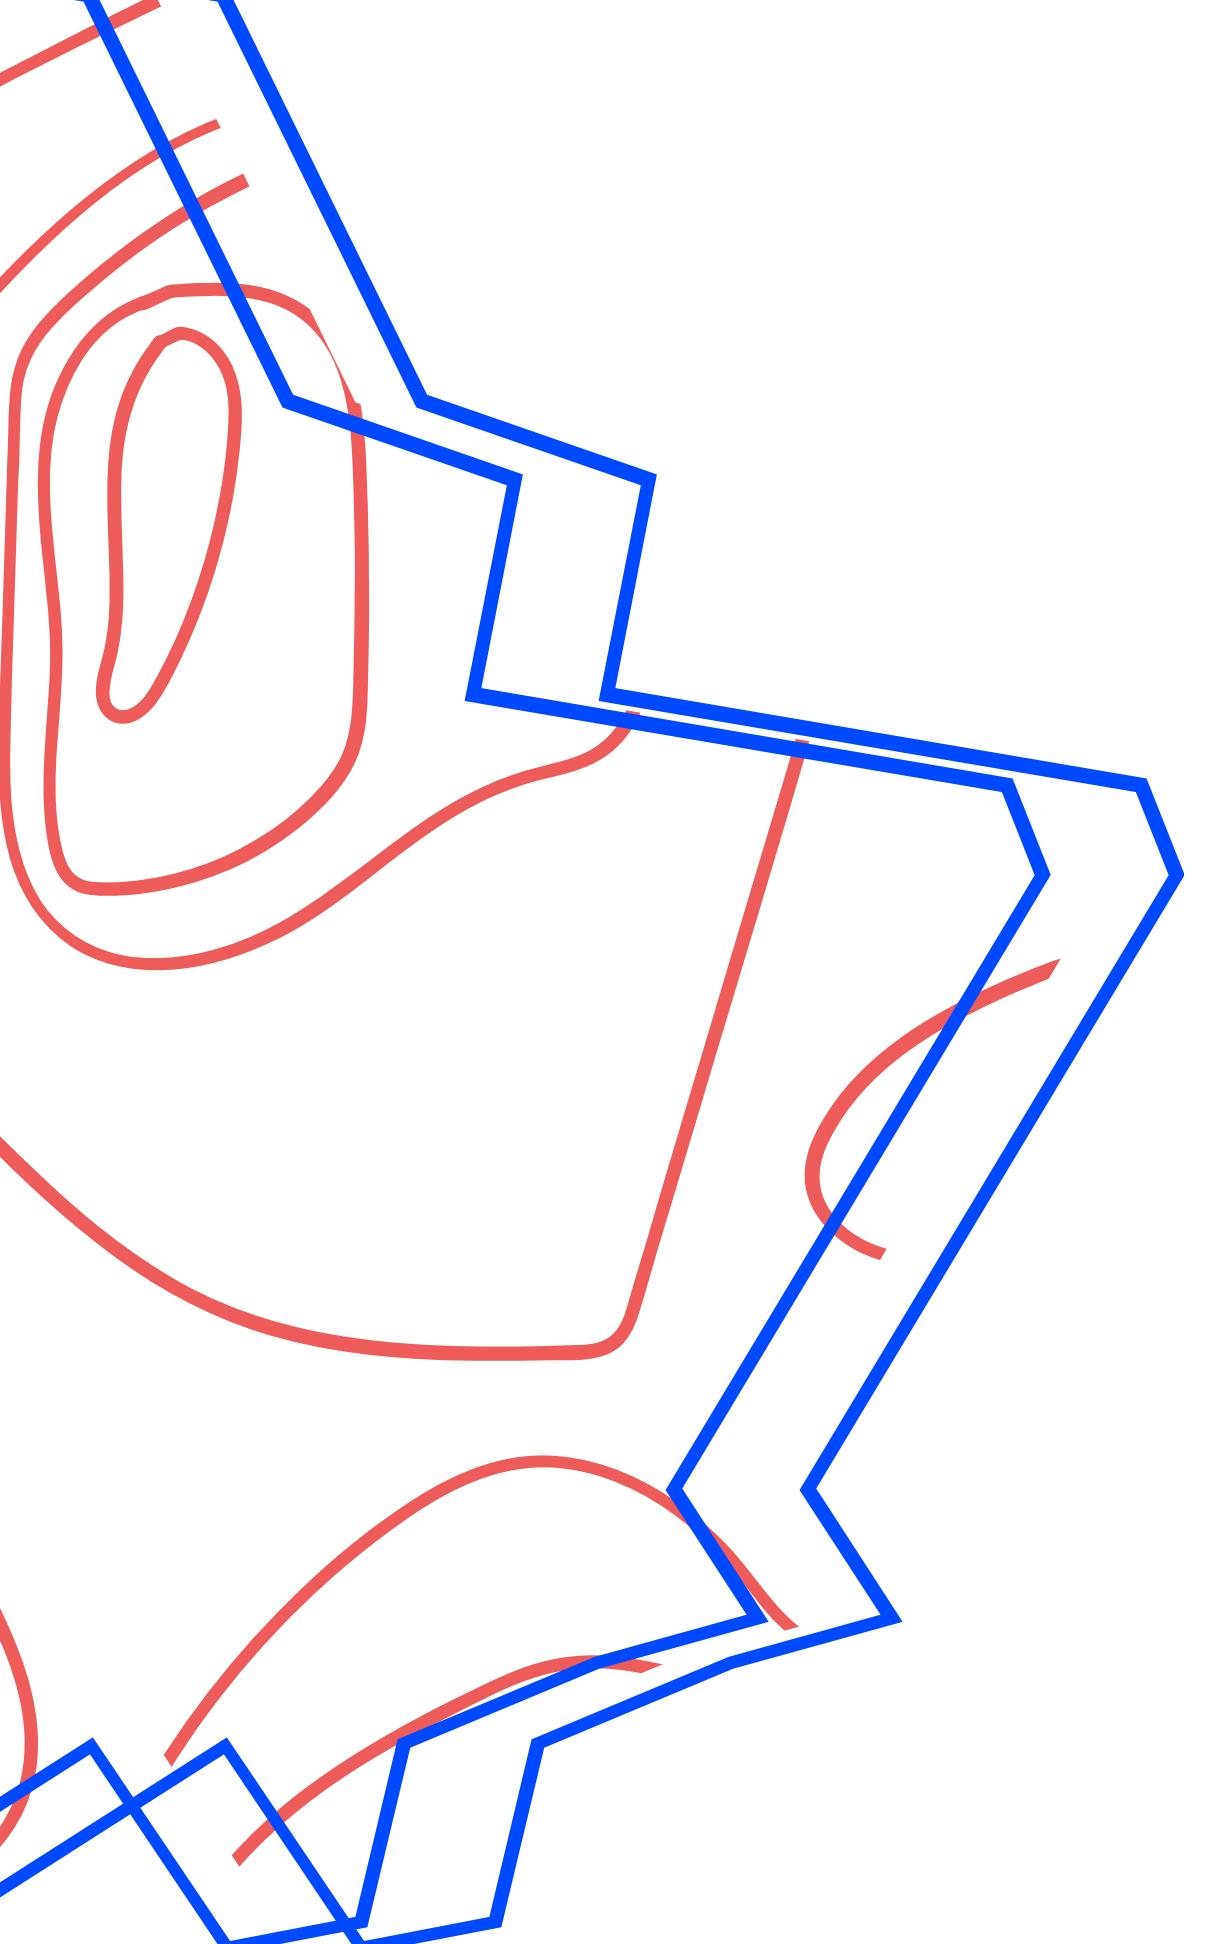

- Developers and users of geospatial software
- Managers of geospatial projects
- Decision-makers
- Geospatial technical opinion leaders
- Companies looking to connect with open source communities
- Urban planners and designers
- Public participation policy-makers

Why you should sponsor

FOSS4G is a unique marketing opportunity, and we are confident your involvement as a sponsor will provide your company with exceptional industry rewards. High outreach and visibility, exposing your company to around 1,000 participants and more than 100 companies. Your organization will receive exposure to key decision-makers in the open-source geo community of businesses, users, and academia.

Sponsorship benefits include

- Obtaining direct access to current and potential clients during and after the event
- Opportunities to engage a premium audience of key industry stakeholders and potential clients
- Demonstrating the strength of your corporate brand, products, and/or services
- Network and build relationships

Become a Sponsor. Sponsorship opportunities

We offer potential sponsors many ways to support the event. You will find six of them presented in the table next page, and additional sponsorship possibilities on the page after.

Become a sponsor: Additional Sponsorship opportunities

Like other conference formats, FOSS4G also involves different opportunities and activities where companies or individuals can increase their visibility and enlarge their network by supporting the event.

Catering sponsor conference

If you are not a software company but still want to contribute to free software and increase your brand's visibility within this community, catering sponsorship is the solution for you. Your products will be present during the conference.

There are only **6 spots** available for catering companies, covering the main events of the conference, the Welcome Party and the Gala dinner.

Catering Sponsor conference - **€ 2,000**

- Mentioned as partner on the conference website and on printed materials
- 2 banners during one evening (Ice-breaker or gala dinner) of the event

Additional Options

Exhibition Table - € 1,000 - a standing table and space for 1 banner in the hall. A conference pass is not included in the price.

Exhibition Stand - € 3,000 - an exhibition space in the hall 3×2 and space for 1 banner- in the hall. A conference pass is not included in the price.

Diversity and Participation Grant

As in previous years, we will continue to reach out to groups who would otherwise be less likely to attend our conference, in an effort to increase diversity among our attendees. We have travel grants earmarked for diversity, as we find this benefits both the conference and the open-source geo community as a whole.

If you would like to sponsor FOSS4G2023 in any other way or you want to discuss additional sponsorship opportunities, please contact the team at sponsors@foss4g.org.

We are always looking for new and creative ideas regarding the involvement of our sponsors with the community.

Venue

Kosovo

The Republic of Kosovo lies at the centre of the Balkans and is a developing country experiencing solid economic growth over the last decade.

The borders of Kosovo are largely mountainous, characterized by sharp peaks and narrow valleys. Besides the beautiful mountains and ancient ruins, Kosovo is known for its people's hospitality. The capital city of Kosovo is Prishtina, known for its nightlife and café culture.

Set in the foothills of the Sharr Mountains, **Prizren** was once a capital city, being a large cultural and trading center. The town has always been one of Kosovo's most beautiful cities, with unique roads, churches, mosques, and lots of old houses, which now serve for visual storytelling on city's history and tradition. The city has carefully maintained its influence from the Ottoman Empire while also adopting architecture from the west, so it gives the sensation of a mixed culture. Prizren is home to one of the best international documentary film festivals, Dokufest, which takes place in early August.

Area: 10,887 km² (4,203 sq mi)
Capital: Prishtina
Country Code: +383
Population: 1.873 million (2020)
Currency: Euro €

Ethnic Groups: 92% Albanians, 4% Serbs, 4% others
Official Language: Albanian
Religions: Islam, Catholicism, Orthodoxy
Time Zone: UTC/GMT +2 hours

ITP

Innovation and Training Park (ITP) Prizren is a business park located in the Eastern suburb of the city of Prizren. The area of 39 hectares has been used for military purposes from 1906 until recently. Now an Innovation and Training Park, the space offers a networking atmosphere which builds on collaboration and shared resources. ITP benefits traditional economic sectors by acting as a center for the distribution of innovative technologies. In this regard, it impacts the general productivity and increases local consumption as well as international exports.

The buildings in the area include:

- 23 accommodation houses
- Administrative buildings
- Maintenance buildings
- Workshop sheds
- A sports facility

Recreational facilities such as:

- Cafés
- A church (not functional),
- A modern canteen,
- And a hospital (not functional).

Thank You!

Free Libre Open Source Software Kosova (FLOSSK) is a non-governmental organization based in Prishtina, Kosovo, established in 2009 to support, promote, and develop free and open-source software. FLOSSK also contributes to open and participatory knowledge, education in information technologies through open courseware, and open standards, culture, and open society using open communication.

The Open Source Geospatial Foundation (OSGeo) is a not-for-profit organization whose mission is to support and promote the collaborative development of open geospatial technologies and data. The foundation provides financial, organizational, and legal support to the broader open source geospatial community.
